CONTRIBUTION

Design development · BIM coordination · Digital workflows

01 DESIGN

Develop design solutions for complex architectural forms and coordinate design intent across project teams.

02 BIM DELIVERY

Lead model coordination, issue resolution and multidisciplinary BIM delivery.

03 DIGITAL WORKFLOW

Use Rhino, Grasshopper and Rhino.Inside.Revit to connect design geometry with Revit delivery.

WHAT I LEAD

A leadership profile built around design, BIM and digital delivery.

01

DESIGN LEADERSHIP

- Design development
- Design coordination
- Complex geometry
- Design problem solving

02

BIM LEADERSHIP

- BIM strategy
- Multidisciplinary coordination
- Clash management
- QA / QC

03

COMPUTATIONAL DESIGN

- Rhino + Grasshopper
- Rhino.Inside.Revit
- Parametric workflows
- Design-to-BIM

04

DIGITAL FABRICATION

- 3D printing
- Robotic arm printing
- Thermo-cutting
- Fabrication-ready geometry

CORE SOFTWARE

REVIT · RHINO · GRASSHOPPER · NAVISWORKS · REVIZTO · BIM 360

WHY IT MATTERS

I connect design thinking with BIM delivery and digital fabrication

so complex ideas can move from geometry to coordinated, buildable outcomes.

ABOUT / LEADERSHIP

PROFILE IMAGE

BIM + DESIGN LEAD ARCHITECT

Leading BIM and design workflows for complex architectural projects, with experience across entertainment, cultural and healthcare sectors. I work between design development, multidisciplinary coordination, computational design and digital fabrication — connecting teams, geometry and delivery requirements.
